# American Broadband

Community Contribution Program
Application Information

We take local community seriously. It defines our company's culture. American Broadband is committed to helping our communities reach their full potential and we welcome the opportunity to partner with your organization. Please review our program criteria and complete the following application.

Eligibility
Requesting organizations should meet one or more of the following criteria:
- Public organizations with 501(c)3 tax-exempt status;
- Local government units if the charitable contribution is used exclusively for public purposes;
- Serves a community need within American Broadband's market area.

American Broadband does not provide contributions for longer than one year. Some organizations submit multi-year proposals; however, only the first year is considered for approval. Subsequent review and evaluation is required for future support.

We do not make contributions to individuals (generally), for-profit businesses, third-party fundraising organizations, government agencies, political organizations, campaign causes or candidates, or for lobbying or religious purposes.

Giving Opportunities

Monetary Donation or Sponsorship	In-Kind Donations
American Broadband supports locally-based non-profit organizations that serve our communities. In general, monetary donations do not exceed the amount of $1,000.	We make in-kind donations of merchandise and logo'd items for non-profit events. Two weeks advance notice required.
Volunteers	**Technology Education Program**
While we're proud to support our local community organizations financially, we believe that in order to make a community really shine, nothing less than a little elbow grease will do. Our volunteer program allows employees to give their time and talents without taking vacation or flex time. If your organization needs a little volunteer elbow grease, let us know.	Looking for a speaker who can make sense of all the changes that are happening in the world of technology? Employee volunteers can tailor an educational program on a variety of topics, from the basics of the internet to fiber optics.

How to Apply
To apply for support from the Community Contribution Program at American Broadband, please clearly complete the following application, specifying which giving opportunities your organization is interested in. In addition to the application, applicants may submit one 8.5" x 11" page of additional information.

Please submit your completed application to:

Christian Jennings
Marketing Coordinator
American Broadband
1605 Washington Street
